## GOVERNMENT OF INDIA.

## Ministry of Commerce.

New Delhi, the ..... January—12th February 1948.

From

G. R. Kamat, Esqr.,  
Joint Secretary to the Government of India

All Provincial Governments and Chief Commissioners  
(including C. C. of A. and N. Islands).

Subject:—IMPORT TRADE CONTROL POLICY

Sir,

I am directed to invite your attention to the undermentioned papers (copy enclosed) relating to the Government of India's present Import Trade Control Policy:

- (i) Press Note issued by the Ministry of Commerce the 16th May 1947; and
- (ii) Public Notice issued by the Chief Controller of Imports, New Delhi, on the 3rd July 1947.

You will observe from these announcements that control over imports has been necessitated with a view to ensuring that the limited exchange resources of the country are used to the best possible advantage of the Government. The Government have therefore found it necessary to take possible steps to restrict imports to what can be paid for current exchange resources, including such portion of sterling balances as may be made available for current use. The new import policy makes a distinction between goods which will be licensed freely and those which will be licensed at all. Goods which do not fall in either of these categories will be licensed subject to certain monetary ceilings.

2. I am to say in this connection that the extreme measures that have arisen for the conservation of foreign exchange have not to have been overlooked in certain cases by the Provincial Governments or Municipalities or State Governments. The following types of cases have been noticed while examining applications for import licenses:—

(i) Importers have been submitting applications for import licenses for the importation of goods included in the prohibited as well as the restricted lists, stating that contracts have been received by them for the supply of these goods to the Provincial Government, Municipality and States and in some cases to Ministries of the Government of India.

(ii) Secondly, instances have been noticed wherein firms having secured supply contracts from a Provincial or State Government or Municipality or Government sponsored institution, approach the Chief Controller of Imports, New Delhi for a license after making all arrangements with the suppliers abroad for the importation of goods and in some cases after the goods have been landed at an Indian port. The importers contend that they have entered into firm contracts

iii) A third type is the acceptance of tenders by Purchase Officers of the Provincial or State Governments or Municipalities on the ground that they are the lowest tenders where such acceptance implies utilisation of the country's own resources when articles of indigenous manufacture are readily available though this might have involved the acceptance of another tender at a slightly enhanced rate.

As regards (i) above, it may be stated that no difficulty is likely to be experienced in the grant of licenses for goods which are licensed freely; but in respect of the goods included in the other two categories, viz., restricted and prohibited, the grant of licenses to parties holding contracts from Provincial Governments or other purchase authorities might run athwart Government's import control policy besides being an embarrassing Government, leading as it will be to a serious complaint from regular and other established traders who have been denied licenses in respect of similar goods. This argument applies equally to cases of the nature referred to in paragraph 2 (ii) above.

As regards para 2 (iii), although the particular institution of Provincial or State Government may economise on the purchase of goods, the contracts lead to avoidable disbursements of Government's limited exchange resources at a time when its conservation is a matter of considerable importance to the being of the State and its future economic development.

In view of the importance attached to this matter, I suggest that the following fundamental principles may be observed in placing contracts in future for meeting governmental needs:—

- (i) that no commitments should be entered into for the purchase of goods which have to be obtained by specific imports, unless in accordance with licensing instructions issued and published from time to time by this Ministry such goods are to be freely licensed for imports;
- (ii) in cases other than those referred to in (i) above, the grant of a license for any order placed by any Purchasing Officer of Provincial or State Government should not be assumed;
- iii) the ordinary purchase rule of accepting a lowest tender should be relaxed in cases where it is not possible to get the goods from internal stocks or from indigenous sources. In other cases the acceptance of a slightly higher tender where specific importation is involved should be seriously considered.

I am to invite your attention to the latest Public Notice issued by the Chief Controller of Imports, New Delhi, on 12th December 1947 (copy enclosed) relating to the new policy for the January-June 1948 shipping period. The policy of the Gazette Extraordinary of the 12th December 1947 have already been forwarded to you.

It may be added that the Import Control Regulations apply only to those imports that are made through commercial channels in India. Where purchases are made by the India Department in the United Kingdom and by the India Mission in the U. S. A. on orders placed on them by the Ministry of Industry and Supply of the Government of India, no import licenses are required, irrespective of whether purchases are made to meet the requirements of Central, Provincial or States Governments.

I have the honour to be

Sir,

Your most obedient servant,

G. R. Kamat.

Joint Secretary to the Government of India.

## PRESS NOTE.

### GOVERNMENT REVISES IMPORT TRADE CONTROL POLICY.

STEPS TO MAKE BEST USE OF FOREIGN EXCHANGE RESOURCES AND TO STOP INFLOW OF NON-ESSENTIAL GOODS.

#### *Measures to prevent trade dislocation announced.*

The Government of India have reviewed the entire Import-Trade Control Policy and the revised policy will come into force from July 1, 1947, the beginning of the next shipping period, although applications to cover that period will be accepted on or after May 25. The review of policy was undertaken with a view to making the best possible use of India's foreign exchange resources and further to restrict imports of certain consumer and other non-essential goods which have arrived in the country in very substantial quantities.

Measures to prevent any dislocation of trade in consequence of the Government's decision and to enable firms, as far as possible to honour commitments already entered into are also announced.

As a result of the Government's review of policy, it has been decided forthwith to cancel Open General Licenses Nos. I and III applicable to imports from Ceylon, Portuguese possessions in India and any country contiguous to the land frontiers of India and to withdraw the existing Open General License No. VII applicable to imports from the United Kingdom and other Empire countries with the exception of Canada, Newfoundland and South Africa. A fresh Open General License No. IX is being issued simultaneously with the supersession of O. G. L. VII.

Notification giving effect to these decisions are being published in the Gazette of India Extraordinary dated May 16, 1947.

#### *No Impediment to flow of Trade.*

In order to avoid any dislocation of trade, it has been decided that all goods covered at present by O. G. L. Nos. I and III and those which are not included in the new O. G. L. No. IX to be issued in supersession of the existing O. G. L. VII should be allowed to be imported without any license if shipped on or before June 30, 1947.

Similarly goods covered by O. G. L. No. VIII, which permitted the import of certain articles from any country without license and which was cancelled on March 14, 1947, will be allowed to be imported with no license provided shipment is made on or before June 30, 1947.

As it is possible that some firms have already placed orders for goods covered by O. G. L. Nos. I, III, VII and VIII and as it is necessary that commitments already made should, as far as possible, be honoured, it has been decided to issue licenses as indicated below provided applications are made to the Chief Controller of Imports, Church Road, New Delhi, on or before June 15, 1947.

(a) Where irrecoverable letters of credit have been opened, licenses will be granted for the value of the letters of credit and will be valid for shipment up to the date of the validity of the credit.

(b) Where business is not generally done on the letter of credit system, licenses will be granted on the production of documentary evidence that firm orders were placed and accepted before March 14, 1947, in the case of O. G. L. VIII before May 16, 1947, in the case of O. G. L. Nos. I, III and VII. These licenses will be valid for shipment up to September 30, 1947.

#### *Revalidation of Licenses.*

In regard to the revalidation of licenses which are due to expire on June 30, 1947, applications on the prescribed form should be made to the Chief Controller of Imports, New Delhi, on or before June 15. But in the case of items covered by Part I of the Import Trade Control schedule, applications should be addressed to (a) the Steel Import Controller, Calcutta, for iron and steel goods, and (b) the Development Officer (Metals), Directorate-General Industries and Supplies, New Delhi, in respect of non-ferrous items.

Revalidation will be allowed only in the following cases:—

(1) Where irrevocable letters of credit have been opened valid beyond June 30, 1947. Such licenses will be revalidated

(2) In the case of business done on other than letter of credit basis, licenses will be revalidated for shipment on or before September 30, 1947, on production of documentary evidence that firm's orders have been placed and accepted before May 16, 1947.

# OFFICE OF THE CHIEF CONTROLLER OF IMPORTS IMPORT TRADE CONTROL.

## PUBLIC NOTICE.

In the Press Note issued on the 16th May, it was announced that the whole Import Trade Control policy has been reviewed with a view to make the best possible use of India's foreign exchange resources and to further restrict the import of certain types of consumer and other unessential goods which have arrived in the country in very substantial quantities. As a result of this review, it has been decided that no licenses should be granted for certain articles. In order to dissuade importers from making applications for articles for which no licenses would be granted, a list of the items covered is given in Appendix I to this Notice.

2. Licenses for machinery and certain essential raw materials will be granted freely a list of such items is given in Appendix II to this Notice.

3. Licenses for other items will be granted either on quota basis or on merits. For the purpose of calculation of quotas the year 1945-46 has been taken as the basic year except in the case of certain specified items for which different basic years have been adopted.

4. Applications for licenses for the July-December, 1947, shipping period may be made so as to reach the proper licensing authority on or before the 25th July, 1947. Applicants should estimate their six monthly requirements of the same item from all sources and make applications accordingly. Separate applications should be made for each different article and for imports from each different country.

5. Applicants are advised that they should furnish the detailed information required in the prescribed form of application including figures of their imports in the period 1st April, 1945 to 31st March, 1946 supported by copies of Customs bills of entry, invoices etc. The precise ultimate object for which the goods are to be imported should also be stated. Importers who have not imported the goods concerned in the basic year but have imported them in any other year should furnish figures of such imports together with necessary supporting evidence.

6. The limiting factor in all cases will be the c.i.f. value and importers are advised so to adjust their orders that the value for which a license has been granted is not exceeded, on any account.

7. The above instructions apply to goods falling under Parts II to V of the Import Trade Control Schedule attached to Commerce Department Notification No- 23-I.T.C.-43, dated the 1st July 1943.

8. As regards items falling under Part I of the Import Trade Control Schedule, applications should be made to the Steel Import Controller of Development Officer (Non-ferrous metals).

9. The procedure for the licensing of capital goods is not affected by these instructions. Capital goods will continue to be licensed as at present.

M. ISMAIL,

For Chief Controller of Imports.

PUBLIC NOTICE.

Subject :—Procedure for applying for import licenses for the shipping period January-June 1948

December 1947, detailing the licensing arrangements for January-June 1948. It is not possible to reproduce the contents of the Gazette Extraordinary in a Public Notice. Only the salient points are mentioned below :—

1. Three lists have been published showing —
  - (a) articles which will be licensed freely from dollar areas,
  - (b) articles which will be licensed freely from non-dollar areas, and
  - (c) articles which will not be licensed at all.

Goods not classified in these lists are subject to monetary restrictions.

2. Open General License No. IX is cancelled, but shipments will continue to be allowed up to the 31st March 1948 without license for orders placed under Open General License No. IX. All shipments made after that date must be covered by license.

3. For articles which normally take a long period of time for delivery, a list of which has been published in the above-mentioned Gazette, licenses issued after the 1st January 1948 will be valid for a period of one year from the date of issue. For all other articles licenses will be valid for a period of six months from the date of issue.

4. A new form of application for licenses has been prescribed, a copy of which is published in the abovementioned Gazette. Applications received in any other form or with incomplete details are liable to be ignored.

5. Dates for receiving applications for licenses have been specified as follows :—

- (a) Applications from actual consumers of goods from 1st January 1948 to 20th January 1948.
- (b) Applications from parties who have imported similar goods in 1945-46 or earlier years from 20th January 1948 to 10th February 1948.
- (c) Applications from those who did not import such articles in 1945-46 or earlier years from 10th February 1948 to 28th February 1948.

Applications for import of freely licensed articles may however be made at any time.
